Scheller College, Participation Over Time

*work abroad data unavailable prior to 2008

Scheller International Participation Breakdown

“When you are in charge of planning your own travel as well as managing your own academics, you learn organization. When you’re traveling places where you don’t speak the native language and are trying to navigate public transportation, you learn flexibility. After tackling these challenges, you return knowing that you can rise to almost any occasion.”

- Maggie Kellet, B.A.
GT Lorraine Undergraduate Program, 2012
